**Exam** : **DES-9131**

**Title** : Specialist - Infrastructure  
Security Exam

**Vendor** : EMC

**Version** : DEMO

**NO.1** What contains a predefined set of instructions or processes that describes the management policy, procedures, and written plan defining recovery of information systems?

- A. BIA
- B. BCP
- C. RAS
- D. DRP

**Answer:** B

**NO.2** Your data center uses a diesel generator as backup for two different power grids provided by your regional power company. During a period of unprecedented heat, you experience brown-outs on both grids simultaneously. The diesel generator starts up but only runs for two minutes before it also shuts down, leaving your entire data center down until grid power can be restored. Further inspection reveals a clogged fuel filter.

Failing to schedule preventive service for the backup generator is a failure in which function?

- A. Recover
- B. Protect
- C. Respond
- D. Detect

**Answer:** D

**NO.3** The CSIRT team is following the existing recovery plans on non-production systems in a PRE-BREACH scenario. This action is being executed in which function?

- A. Identify
- B. Recover
- C. Protect
- D. Respond

**Answer:** C

**NO.4** What must be done before returning a compromised laptop to normal operations in the environment?

- A. Eliminate the root cause of the compromise
- B. Device cannot be returned to the environment
- C. Re-image the device
- D. Perform a virus scan

**Answer:** C

**NO.5** A new employee is starting work at your company. When should they be informed of the company's security policy?

- A. Based on human resource policy
- B. During regular security awareness sessions
- C. Annual security policy review
- D. After the first security infraction

**Answer:** B

**NO.6** Match the security event to its description.

Event	Description
Denial of Service	Non-authorized person with access to places where they should not have, or having access to systems and resources not designated to them
Attrition security event	Generated by behaviors from users, employees, contributors, or vendors who violate company policies
Misuse	Service or workload is overwhelmed, or has no available resources to perform its task
Intrusion event	When a user downloads a message with malicious links, images, attachments, or scripts
Email security event	Generated by brute force attacks to compromise, degrade, or destroy systems, networks, and services

**Answer:**

Event	Description
Denial of Service	Intrusion event
Attrition security event	Misuse
Misuse	Denial of Service
Intrusion event	Email security event
Email security event	Attrition security event

## Description

Intrusion event

Misuse
